

**Bachelor of Architecture Examination 2017**

**4<sup>th</sup> Year Semester II**

**ARCHITECTURE DESIGN and DELINEATION IV**

Time: 12 Hours

Maximum Marks: 100

1. Students will be provided with maximum of 8 nos. half imperial (50X37.5cms roughly) drawing sheets and 2 nos. half imperial butter sheets.
2. Rough work may be done in answer copies and butter sheets but will not be graded.
3. Students are allowed to refer the Site Plan with Ground Floor in A3 size of their ongoing design on Housing this semester brought by them for the purpose.
4. Freehand drawings/sketches in marker/sketch pens will be preferred with limited text. Use of Water/Poster colors will be similarly appreciated.
5. The emphasis is on the architectural ideas and the resulting spaces. Students may provide sketches to show these spaces.
6. Any information or data not provided may be assumed.

Design the Health Center/Guest House with Banquet and Restaurant facilities for your Housing project you are about to complete. The Health Center may have not more than 12 beds for men and women along with consultation rooms not exceeding 4. Similarly, the Guest House may not have more than 12 guest beds. The students are expected to provide spaces for accompanying activities of sizes as desired in the Health Center/Guest House accordingly.

Drawings required at an appropriate scale to fit the paper, when needed:

1. Showing the idea behind the Health Center/Guest House in relation to the Housing project.
2. Overall Site Plan with Ground Floor of the Health Center/Guest House also showing the building/s with landscape and parking designed earlier in the semester.
3. The remaining floor plans of the Health Center/Guest House.
4. Minimum 2 interesting Sections showing the Health Center/Guest House in relation to the other buildings designed earlier.
5. Axonometric/Isometric view of Health Center/Guest House showing interior spaces.
6. Sketches of spaces within the Health Center/Guest House.
