# Jadavpur University to adopt 4-year UG course under NEP 2020

TNN | Apr 14, 2023, 10:18 AM IST

KOLKATA: Jadavpur University decided to adopt the four-year undergraduate course under the "New Curriculum and Credit Framework for Undergraduate Programme" after it held a joint faculty (arts and science) meeting on Thursday to discuss the modalities of implementing NE.

Pro-VC Chiranjib Bhattacharjee said, "We have adopted the four-year UG course structure under NE and will follow the credit system framework with some modifications." A senior professor said the entry and exit system would not be implemented as of now as "we do not have such capacity and infrastructure".

Presidency University has also developed a framework for the four-year undergraduate course, accepted by different departments. An official said, "A few interdisciplinary courses have been identified. The fourth-year course will accommodate some of the things being taught in PG now." A professor added, "The entry and exit system will not be implemented."
