

Ex/PHIL/PG/4.5.3/2022

MASTER OF ARTS EXAMINATION, 2022

(2nd Year, 4th Semester)

PHILOSOPHY

[PHILOSOPHY OF COGNITIVE SCIENCE II]

Time : Two Hours

Full Marks : 30

Group – A

1. Critically explain how Varela, Thompson and Rosch favour the “chicken position” but at the same time avoid the “Egg position” within the framework of embodied cognition. 15

Or

2. Examine the difference between Thelen and Clark’s positions with regard to their notions of embodiment. Explain why Thelen’s position supports the thesis of Replacement and Clark’s position supports the thesis of constitution. 10+5=15

Group – B

3. What is the relationship between mental activity and brain activity? What are the limitations of behaviourism regarding the study of mental activity? 8+7=15

Or

4. What is the relation between mental representation and mental processing? Briefly explain the importance of brain analysis in cognitive psychology. 7+8=15
